

# Let's Get Ready to BUNNDLLE.....

CHESTER A AMEDIA JR MD FACP  
PROFESSOR CLINICAL INTERNAL  
MEDICINE  
CO-CHAIR NEPHROLOGY SECTION

---

---

---

---

---

---

---

---

## Disclosures

- ▶ Interventional Nephrologist
- ▶ RPA Board of Directors
- ▶ CPT Advisor
- ▶ Professor of Clinical Internal Medicine, NEOMED
- ▶ Executive Committee Network Strategies & Innovations
- ▶ Manage and operate independent dialysis units
- ▶ No Conflicts
- ▶ Opinions are my own

---

---

---

---

---

---

---

---

There are changes in the winds.....

---

---

---

---

---

---

---

---

## Bundling: Why Now?

- ▶ Elimination of Component Billing
  - ▶ Perceived "Gaming"
  - ▶ Practice Variation
  - ▶ "Over Valuation"
- ▶ Administrative Simplicity
  - ▶ Claims Adjudication
  - ▶ Auditing
- ▶ Value Based Purchasing
- ▶ CMS Pressure
- ▶ **COST SAVINGS**

---

---

---

---

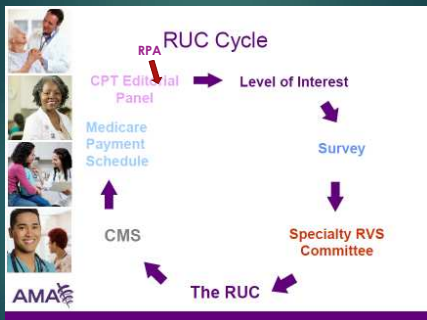

---

---

---

---

## CPT Code Development & Valuation

---

---

---

---

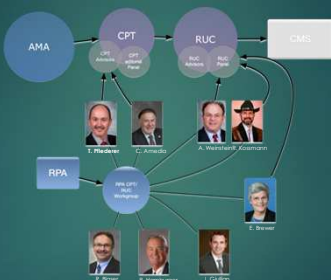

---

---

---

---

## RPA's Role

---

---

---

---

---

---

---

---

## Terms

- ▶ CPT = Current Procedural Terminology
- ▶ Resource Based Relative Value Scale
  - ▶ Medicare and 70% of other payers
  - ▶ (1992) based on true costs of providing a CPT service (resources used)
  - ▶ Replaced UCR

---

---

---

---

---

---

---

---

## Components of RBRVS

### Average Composition:

- ▶ 52 % = Physician work
- ▶ 44 % = Practice expense
- ▶ 4% = PLI

---

---

---

---

---

---

---

---

## So, How Did We Get Into This Bundle Thing?

---

---

---

---

---

---

---

---

## Recent History

- ▶ July 2011 – CMS identified 35475 & 35476 by High Expenditure Screening as likely for review (last – 2004)
- ▶ January 2012 – RUC recommended that the codes be reviewed at their April 2012 meeting for 2013 CPT
- ▶ 7 February 2012 – Interested Societies notified that the codes were to be reviewed
  - ▶ ACR & SIR identified for survey
  - ▶ ACS & SVS identified for comment
  - ▶ Nephrology identified as highest use for 35476 and second highest for 35475
- ▶ 23 February:
  - ▶ RPA submitted LOI to participate in the process and the survey
  - ▶ Vignettes written
- ▶ Survey was ultimately completed with reduced RVUs

---

---

---

---

---

---

---

---

## More Recent History

- ▶ RUC identified 75978 as potentially misvalued and highly utilized and billed with 35476 99% of the time
  - ▶ Referred to CPT
  - ▶ Specialties agreed to bundle these
- ▶ Nov 2014 – RPA agreed to work with other Societies
  - ▶ RPA to focus on Dialysis Access
  - ▶ SVS, SIR, ACR to focus on Aorta and its major branches
- ▶ Jan 2015 – RPA bundle concept rejected by other societies
- ▶ May 2015 – Attempts at agreement failed

---

---

---

---

---

---

---

---

## Current Timeline

- ▶ August 2015 – RPA submits CPC separate from other societies
- ▶ September 2015 – Through CPT/RUC pre-facilitation process, agreement on a single proposal
- ▶ October 2015 -- CPT meeting presentation
- ▶ November-December – Survey of interested Societies; Internet Based
- ▶ January 2016 – Review by RUC
  - ▶ Federal Register 2016 – Medicare Fee Schedule
- ▶ January 2017 – Publication in CPT

---

---

---

---

---

---

---

---

## What is a Bundle?

- ▶ A collection of services that were previously described by separate CPT codes that are consolidated into a new all encompassing code.
- ▶ The new code is usually valued at less than the sum of its components.
  - ▶ Elimination of duplicate activities
  - ▶ General perception that savings should accrue

---

---

---

---

---

---

---

---

## Dialysis Circuit

- ▶ Redefined anatomical boundaries
- ▶ Fewer possible types of interventions
- ▶ Claims reporting will be less granular
- ▶ Procedures will have reduced assigned value

---

---

---

---

---

---

---

---

## Let's Review a Survey Experience

- ▶ **STEP 1** – Review code descriptor and vignette
- ▶ **STEP 2**- Review introduction and complete contact information
- ▶ **STEP 3**- Identify a reference service
- ▶ **STEP 4** – Report your time
- ▶ **STEP 5** – Compare revised code to reference service
- ▶ **STEP 6** – Estimate work RVU

---

---

---

---

---

---

---

---

## REALTIME EXAMPLE: Central Blood Pressure Survey of 2015

Please select all of the CPT Codes that apply to you. You will be surveyed about each code you select.

Once you have made your selection(s), please click the "Next" button below to continue.

CPT code: 93001

Descriptor: Arterial pressure waveform analysis for assessment of central arterial pressures. Includes obtaining waveforms, digitization and application of nonlinear mathematical transformations to determine central arterial pressures and augmentation index, with interpretation and report, upper extremity artery, non-invasive (Do not report 93001 in conjunction with diagnostic or interventional intra-arterial procedures).

Global: XXX

Typical Patient: A 43-year-old obese male with a peripheral blood pressure of 105/100 on a beta blocker, vasodilator and angiotensin enzyme inhibitor has noninvasive central arterial waveform and pressure determination.

---

---

---

---

---

---

---

---

---

---

---

## Step 1 - Review Code Descriptor and Vignette

- ▶ The vignette describes the **TYPICAL** clinical scenario for the procedure
  - ▶ This is the "mean" and not the "extreme"
- ▶ If you **HAVE** performed this procedure within the last year complete the survey
- ▶ If you **HAVE NOT** performed this procedure within the last year **DO NOT** complete the survey

---

---

---

---

---

---

---

---

---

---

---

## Typical Patient: Analyze Carefully

Is your typical patient for the following procedure similar to the typical patient as described below?

CPT Code: 93001

Descriptor: Arterial pressure waveform analysis for assessment of central arterial pressures. Includes obtaining waveforms, digitization and application of nonlinear mathematical transformations to determine central arterial pressures and augmentation index, with interpretation and report, upper extremity artery, non-invasive (Do not report 93001 in conjunction with diagnostic or interventional intra-arterial procedures).

Typical Patient: A 43-year-old obese male with a peripheral blood pressure of 105/100 on a beta blocker, vasodilator and angiotensin enzyme inhibitor has noninvasive central arterial waveform and pressure determination.

Yes  
 No

NOTE: If you will be using your computer and device to complete this survey, please ensure that you are logged in to the web page you intend to submit your survey.

Questions about this survey? Please contact: [POF@ama-assn.org](mailto:POF@ama-assn.org) or 1-800-541-4673

---

---

---

---

---

---

---

---

---

---

---

## STEP 2 – Review Introduction and Complete Contact Information

Although contact and basic practice information is collected, your name is never forwarded to the AMA or used for tracking purposes.

---

---

---

---

---

---

---

---

## Demographics & Eligibility For Participation

The following information must be provided by the physician responsible for completing the questionnaire:

### Contact information:

Physician name	<input type="text"/>
Business name	<input type="text"/>
Business phone (e.g. 919.555.5555)	<input type="text"/>
E-mail address	<input type="text"/>
Physician specialty	<input type="text"/>

### Primary geographic practice setting:

- Rural
- Suburban
- Urban

### Primary type of practice:

- Solo practice
- Single specialty group
- Multispecialty group
- Medical school/teach practice joint

## These Questions May Disqualify You

### Financial Disclosure:

Choose answer for following questions by checking yes or no.

For the following questions, please indicate whether you and/or a spouse, domestic partner, parent, child, brother, or sister have a known, direct financial interest in this/these procedure(s), other than providing these services in the course of patient care.

For the purposes of this survey, "organization" means any entity that makes or distributes the product that is utilized in performing the service(s), and not the physician group or facility in which you work to perform the service(s).

Materially means \$10,000 or more in income (excluding any reimbursement for expenses) for the past twenty-four months.

	Yes	No
A financial ownership interest in an organization of 5% or more	<input type="radio"/>	<input type="radio"/>
A financial ownership interest in an organization which contributes materials to your income	<input type="radio"/>	<input type="radio"/>
Ownership of stock options in an organization	<input type="radio"/>	<input type="radio"/>
A position as proprietor, director, managing partner, or key employee in an organization	<input type="radio"/>	<input type="radio"/>
Serve as a consultant, researcher, expert witness (including professional liability testimony) speaker or writer for an organization or proprietor in a direct fee arrangement for services being reviewed where payment/compensation of at least \$10,000 in your income for the past 24 months	<input type="radio"/>	<input type="radio"/>

# STEP 3 – Identify a Reference Service

- ▶ **List of Reference Services:** Your survey packet includes a list of reference services.
  - ▶ These were identified by the submitting societies for comparisons
    - ▶ Usually a few at the extremes
    - ▶ Many more in the anticipated response area
    - ▶ Many may be unfamiliar to you
- ▶ **Your Task:** Select a code from this list that is most similar to the surveyed code.
- ▶ **Purpose:** The reference service will be used as a comparison to the surveyed code throughout the survey.

---

---

---

---

---

---

---

---

---

---

# Physician Work: This is What Determines RVUs

### PLEASE READ THIS IMPORTANT INFORMATION BEFORE PROCEEDING WITH THE SURVEY.

#### PHYSICIAN WORK

"Physician work" includes the following elements:

- Physician time it takes to perform the service
- Physician mental effort and judgment
- Physician technical skill and physical effort, and
- Physician psychological stress that occurs when an adverse outcome has serious consequences

All of these elements will be explained in greater detail as you complete this survey.

"Physician work" does not include the services provided by support staff who are employed by your practice and cannot bill separately, including registered nurses, licensed practical nurses, medical secretaries, receptionists, and technicians; these services are included in the practice cost relative values, a different component of the Resource-Based Relative Value Scale (RBRVS).

# Reference Services List

**Background for Question 1**

Below is a list of reference services that have been selected for use in comparison services for this survey because their relative values are sufficiently accurate and unique to compare with other services. The "Work RVU" column presents current Medicare RBRVS work RVUs (relative value units). Select one code that is most similar to each of the CPT code(s) you have chosen to survey.

**It is very important to consider the global period when you are comparing the survey code to the reference services.**

**XXX – A global period does not apply to the code and evaluation and management and other diagnostic tests or minor services performed, only be reported separately on the same day.**

CPT Code	Description	Work RVU	Global Period
57186	Measurement of pulmonary function at or near ambient conditions by spirometry	0.80	XXX
85504	Measurement of carbon dioxide pressure with a pulmonary catheter; metabolic base modifier including test and problem list review; clinically relevant (flow)	1.97	XXX
85523	Analysis of inspired/expired volume for drug delivery control	0.04	XXX
76027	Ultrasound bone density measurement of appendicular projection (arm) only (bilateral)	0.90	XXX
85550	Point of care oxygen saturation using noninvasive pulse oximetry; ambulatory with a pulse oximeter; includes initial set-up, data download, data interpretation and report	0.09	XXX
86370	AGE related, AMM (amino acid) panel (any)	0.07	XXX
86975	Each step serum glucose (SGPO) random service for diagnosis that is not a clinical check, and test of patients 18 years of age and older	0.14	XXX
85528	ESR (ESR 1) (hour); test (separation and read)	0.18	XXX
85529	ESR (ESR 2) (hour); test (separation and read)	0.17	XXX

---

---

---

---

---

---

---

---

---

---

# This List May Have Codes Which Are Not Familiar

85574	Transmittal, production, or diagnostic report (specimen identifier or drug information) pertaining to drug administration	0.01	XXX
86010	Office of urine collection and test for metabolic and nutritional status of an individual patient, including pre-test preparation in laboratory or other qualified facility as a procedure to allow for sampling of patients; see manual, Symbol: 1, includes test and preparation for sampling blood samples	0.16	XXX
85564	Point of care serum albumin; includes initial set-up, data download, data interpretation and report	0.20	XXX
85565	Point of care serum albumin; includes initial set-up, data download, data interpretation and report	0.20	XXX
85566	Point of care serum albumin; includes initial set-up, data download, data interpretation and report	0.20	XXX
85567	Point of care serum albumin; includes initial set-up, data download, data interpretation and report	0.20	XXX
85568	Point of care serum albumin; includes initial set-up, data download, data interpretation and report	0.20	XXX
85569	Point of care serum albumin; includes initial set-up, data download, data interpretation and report	0.20	XXX
85570	Point of care serum albumin; includes initial set-up, data download, data interpretation and report	0.20	XXX

CPT 85564-85570 are new CPT codes for point-of-care serum albumin testing. The description for CPT 85564-85570 is "Point of care serum albumin; includes initial set-up, data download, data interpretation and report". CPT 85564-85570 are new CPT codes for point-of-care serum albumin testing. The description for CPT 85564-85570 is "Point of care serum albumin; includes initial set-up, data download, data interpretation and report".

---

# This Answer is Crucial... and will not be easy

### Question 1

When considering physician work, which of the reference services on the list above is most similar to the CPT code(s) you are surveying below?

Select your answer(s) in the dropdown box(es) below.

Survey Code: 33001  
Description: Arterial pressure waveform analysis for assessment of arterial pressure, includes obtaining waveform, digitization and application of nonlinear mathematical methods to generate arterial pressure and augmentation index; with interpretation and report upon review; non-emergent (do not report 33001 in conjunction with diagnostic/observational data arterial procedures)

NOTE: If you are the surveyor, your change can be made retroactively. When you save this page, you will be taken to the 401 page you selected and allowed to continue.

---

---

---

---

---

---

---

---

---

---

## STEP 4 – Estimate/Report Your Time

- ▶ This section of the survey asks you to estimate how much time it takes you to perform the procedure.
- ▶ These estimates must be based on personal experience.
- ▶ Typical case time expenditures are to be reported

---

---

---

---

---

---

---

---

## Time

### Background for Question 2: (XXX global period Imaging and Diagnostic Services)

**Pre-service period**  
The pre-service period includes physician work provided before the onset of the procedure and may include review of records and any discussions with other physicians or the charge staff.

**Intra-service period**  
The intra-service period begins at the onset of the examination and ends after the examination is interpreted. Activities in the intra-service period may include performing the procedure, communications with the clinical staff performing the examination, review of preliminary images or data and/or processing of images and data, and interpretation and report of the examination. Only the physician's time spent during the procedure should be considered. Time spent by the technologist and other clinical staff is NOT included.

**Post-service period**  
Activities in the post-service period may include signing off on the report for the medical record, and discussions with the patient and referring physicians if performed.

**Question 2**  
How much of your own time is required per patient treated for each of the following steps in patient care related to this procedure? Indicate your time for the survey codes(s) below. Type in your answers (in minutes) in each box. Please refer to the instructions above for an explanation.

To view the description for the survey codes, please your cursor over the **PI** symbol located above the code.

	PI	Survey Code (XXXX)	Minutes (per Step or Overall)
Pre-service time			
Intra-service time			
Post-service time			

---

---

---

---

---

---

---

---

## STEP 4 – Estimate Your Time

- Physician Time Includes:**
- ▶ **Pre-Service:** includes services provided **before** the service.
  - ▶ May include preparing to see the patient:
    - ▶ Reviewing records and studies, communicating with other professionals,
  - ▶ Patient exam (if not done previously), obtaining diagnostics (INR, K+), counseling, obtaining consent
  - ▶ Preoperative documentation,
  - ▶ Positioning patient on the procedure table, draping.

---

---

---

---

---

---

---

---

**Time**

**Background for Question 2: (XXX global period Imaging and Diagnostic Services)**

**Pre-service period**  
The pre-service period includes physician work provided before the onset of the procedure and may include review of records and any discussions with other physicians in the clinic staff.

**Intra-service period**  
The intra-service period begins at the onset of the examination and ends after the examination is interpreted. Activities in the intra-service period may include performing the procedure, communications with the clinical staff performing the examination, review of preliminary images or data and/or processing of images and data, and interpretation and report of the examination. Only the physician's time spent during the procedure should be considered. Time spent by the technologist and other clinical staff is NOT included.

**Post-service period**  
Activities in the post-service period may include signing off on the report for the medical record, and discussions with the patient and referring physician if performed.

**Question 2**

How much of your own time is required per patient treated for each of the following steps in patient care related to this procedure? Indicate your time for the survey code(s) below. Type in your answers (in minutes) in each box.

Repeat only the information above for a set of activities.

To view the descriptor for the survey code(s), place your cursor over the **SP** symbol located above the code.

	SP	Survey Code (XXXX)	Minutes per hour of procedure
Pre-service time	<input type="text"/>	<input type="text"/>	<input type="text"/>
Intra-service time	<input type="text"/>	<input type="text"/>	<input type="text"/>
Post-service time	<input type="text"/>	<input type="text"/>	<input type="text"/>

---

---

---

---

---

---

---

---

---

---

---

---

**STEP 4 – Estimate Your Time**

**Physician Time Includes:**

- ▶ **Intra-Service:** Starts with the Time Out.
- ▶ Includes all the services provided during the procedure.
- ▶ Ends when hemostasis is achieved and the patient has recovered from conscious sedation.

---

---

---

---

---

---

---

---

---

---

---

---

**Time**

**Background for Question 2: (XXX global period Imaging and Diagnostic Services)**

**Pre-service period**  
The pre-service period includes physician work provided before the onset of the procedure and may include review of records and any discussions with other physicians in the clinic staff.

**Intra-service period**  
The intra-service period begins at the onset of the examination and ends after the examination is interpreted. Activities in the intra-service period may include performing the procedure, communications with the clinical staff performing the examination, review of preliminary images or data and/or processing of images and data, and interpretation and report of the examination. Only the physician's time spent during the procedure should be considered. Time spent by the technologist and other clinical staff is NOT included.

**Post-service period**  
Activities in the post-service period may include signing off on the report for the medical record, and discussions with the patient and referring physician if performed.

**Question 2**

How much of your own time is required per patient treated for each of the following steps in patient care related to this procedure? Indicate your time for the survey code(s) below. Type in your answers (in minutes) in each box.

Repeat only the information above for a set of activities.

To view the descriptor for the survey code(s), place your cursor over the **SP** symbol located above the code.

	SP	Survey Code (XXXX)	Minutes per hour of procedure
Pre-service time	<input type="text"/>	<input type="text"/>	<input type="text"/>
Intra-service time	<input type="text"/>	<input type="text"/>	<input type="text"/>
Post-service time	<input type="text"/>	<input type="text"/>	<input type="text"/>

---

---

---

---

---

---

---

---

---

---

---

---

## STEP 4 – Estimate Your Time

- ▶ **Post-Service:** Services provided **after** the intervention:
  - ▶ These include recovery room checks,
  - ▶ Procedure documentation
  - ▶ Post procedure education, prescriptions and discharge instructions to the patient and family , arranging for further services if indicated
  - ▶ Communicating with other professionals (which includes written and telephone reports)

---

---

---

---

---

---

---

---

## STEP 4 – Estimate Your Time

- Physician Time DOES NOT include:*
- ▶ Services provided by clinical staff
  - ▶ Other services provided on the same day that can be coded separately
  - ▶ Activity caring for other proximal patients

---

---

---

---

---

---

---

---

## STEP 5 – Compare Survey Code to Reference Code

In this step you will be asked to compare the complexity and intensity of the code with the reference service.

---

---

---

---

---

---

---

---

## Mental Effort, Judgement, Skill, Stress

Be Honest.  
But do not underestimate these issues

Mental Effort and Judgment

Technical skill/Physical effort

Psychological Stress

---

---

---

---

---

---

---

---

## Intensity & Complexity: Comparison to the Reference List

Question 4

Compare OVERALL intensity/complexity of all physician work you perform for the survey code(s) relative to the corresponding reference code(s) you selected in Question 1. Using your expertise, consider how each survey code compares directly to the corresponding reference code.

To view the description for the survey code(s) and reference code(s), click your cursor over the JP symbol associated to the code number.

To view the entire reference network list, please use the PDF at the reference network list below.

[Click here to view a PDF version of the reference network list.](#)

You may have to scroll to the right in order to see all of the questions on this page.

## Moderate Sedation

### Background for Question 6

Moderate sedation is a service provided by the operating physician or under the direct supervision of the physician performing the procedure to allow for inclusion of the patient with an altered level of consciousness. Moderate sedation is provided by the physician, anesthesiologist, or other qualified personnel who have the appropriate training and certification. Moderate sedation is provided by the physician, anesthesiologist, or other qualified personnel who have the appropriate training and certification. Moderate sedation is provided by the physician, anesthesiologist, or other qualified personnel who have the appropriate training and certification. Moderate sedation is provided by the physician, anesthesiologist, or other qualified personnel who have the appropriate training and certification.

### Question 6

Do you or does someone under your direct supervision typically administer moderate sedation for these procedures in the following practice settings?

Setting	Yes	No
In the Hospital/ICU	<input type="checkbox"/>	<input type="checkbox"/>
In the Office	<input type="checkbox"/>	<input type="checkbox"/>

**←**

---

---

---

---

---

---

---

---

---

---

---

---

## STEP 6 – Estimate Work RVU

\*\*\*\*\*VERY IMPORTANT\*\*\*\*\*

- ▶ In this final step you will be asked to estimate the physician work RVU
- ▶ You are asked to consider the reference service in developing your estimate
- ▶ The survey methodology attempts to set the work RVU of the surveyed code service "relative" to the work RVU of the comparable and established reference service

---

---

---

---

---

---

---

---

---

---

---

---

## Bundled Reporting Anticipates Aggregating & Discounting of RVUs

### Question 7

**VERY IMPORTANT:** Based on your review of all previous questions, please provide your estimated work RVU (to the 2nd decimal place) for the survey code(s) below.

For example, if the survey code includes the same amount of physician work as the reference service you choose, you would assign the same work RVU. If the survey code requires less work than the reference service you would assign a work RVU that is less than the work RVU of the reference service (and vice versa). This methodology attempts to set the work RVU of the survey code "relative" to the work RVU of comparable and established reference services. Please keep in mind the range of work RVUs in the reference service set when providing your estimate.

To enter the RVU for your chosen reference service, please enter the RVU of the reference service set below.

[Click here to view a full list of the reference service set.](#)

**Survey Code:** 2030002  
**Survey Code Description:** Arterial pressure waveform analysis for assessment of central arterial pressures, includes obtaining waveform(s), digitization and application of nonlinear mathematical transformations to determine central arterial pressures and augmentation index, with interpretation and report, done remotely (any, non-invasive) (do not report 2030001 in conjunction with diagnostic or interventional site arterial procedures)  
**Selected Reference Code:** 3000004

Estimated Work RVU for Survey Code:  **←**

---

---

## Don't Rush to Submit. Review Your Responses

Thank you for taking the time to complete this survey. Please click the "Submit Survey" button below to save your answers and exit the survey.

[Click Here to Submit Survey](#)

---

---

---

---

---

---

---

---

## Preparation needs to begin today.....

- ▶ Begin tracking your time expenditures **NOW**
- ▶ Know the RVUs you generate for various cases
  - ▶ Don't Guess
- ▶ Review your Practice Expenses
  - ▶ Understand your staff time
    - ▶ Level of Staff
    - ▶ Time involved
  - ▶ Equipment
- ▶ Be prepared to provide invoices if asked

---

---

---

---

---

---

---

---
